ETHIMO
OUTDOOR DECOR

Un viaggio nella storia del design

it **Il blu cobalto della Costiera Amalfitana.** L'intramontabile fascino di Saint Tropez, di Montecarlo e della Costa Azzurra. Il raffinato romanticismo delle Dolomiti. L'outdoor metropolitano di Milano. Sono gli scenari scelti da Ethimo per presentare le nuove collezioni, create insieme a nomi affermati ed emergenti del design contemporaneo. Un itinerario nel quale ogni luogo è un capitolo diverso, in un multiforme racconto che ruota attorno al mondo mediterraneo. Una storia fatta di materiali ed emozioni, tradizioni artigianali e cultura del progetto che trasmettono ogni volta un mood diverso, coinvolgente, unico.

A journey into the history of design

en **The cobalt blue of the Amalfi Coast.** The timeless charm of Saint Tropez, Montecarlo and the French Riviera. The refined romanticism of the Dolomites. The metropolitan outdoors of Milan. These are the scenarios chosen by Ethimo for the presentation of its new collections, which have been created by both consolidated and emerging figures in the world of contemporary design. Our journey is a multi-shaped tale through the Mediterranean world, in which each chapter deals with a different location. It is a story made of materials and emotions, artisan traditions and design culture, and every mood conveyed is different, intriguing and unique.

Un voyage dans l'histoire du design

fr **Le bleu cobalt de la côte Amalfitaine.** Le charme éternel de Saint-Tropez, Monaco et de la côte d'Azur. Le romantisme raffiné des Dolomites. L'outdoor de Milan. Tels sont les scénarios qu'Ethimo a choisi pour présenter ses nouvelles collections, créées en collaboration avec des designers de renom et émergents du design contemporain. Un itinéraire le long duquel chaque lieu est un nouveau chapitre, pour un récit multiforme traçant le portrait du monde méditerranéen. Une histoire faite de matériaux et d'émotions, de traditions artisanales et de culture du projet qui transmettent à chaque fois des sensations différentes, captivantes et uniques.

Eine Reise durch die Geschichte des Designs

de **Das Kobaltblau der amalfitanischen Küste.** Der zeitlose Charme von Saint Tropez, Montecarlo und der Côte d'Azur. Die raffinierte Romantik der Dolomiten. Die weltstädtsche Outdoor-Atmosphäre Mailands. Das sind die Szenarien, die Ethimo für die neuen Kollektionen ausgewählt hat, die gemeinsam mit etablierten und aufstrebenden Marken des zeitgenössischen Designs kreiert wurden. Ein Parcours, auf dem sich jeder Ort ein neues Kapitel öffnet, in einer formenreichen Erzählung rund um die mediterrane Welt. Eine Geschichte aus Materialien und Gefühlen, handwerklichen Traditionen und Projekt-Kultur, die jedes Mal eine neue, ansprechende und einzigartige Mood vermitteln.

Collezioni per
ambienti speciali

Collezioni per ambienti speciali

it Tra novità eclettiche e conferme di successo, Ethimo presenta alcune novità, in un piccolo angolo di paradiso nel cuore del Mediterraneo caratterizzato dai colori accesi della ceramica di Vietri e del paesaggio vesuviano. Le nuove poltroncine impilabili Pluvia, ispirate agli anni '80 e Kilt, con un richiamo al mondo dei fieri abitanti delle Highlands, affiancano pezzi ormai classici della collezione Ethimo come i lettini prendisole Costes, la sdraio Elle e i lettini pieghevoli Elìt, in un dialogo coinvolgente e affascinante fra il design, gli spazi, la memoria e la natura.

Collections for special settings

en Amidst a variety of novelties and consolidated items, Ethimo presents some of its collection in a small corner of paradise in the heart of the Mediterranean with the bright colours of ceramic from Vietri and the landscape of the Vesuvius. The new stackable armchairs – Pluvia, with an 80s feel, and Kilt, which evokes the proud inhabitants of the Highlands, stand beside real classics of the Ethimo collection such as the Costes sun loungers, the Elle deckchair and the foldable Elìt sunbeds, all fit together in an intriguing dialogue of design, space, memory and nature.

Collections pour des espaces spéciaux

fr Entre nouveautés éclectiques et succès confirmés, Ethimo présente des nouveautés dans un petit coin de paradis au cœur de la Méditerranée marqué par les couleurs vives des céramiques de Vietri et du paysage du Vésuve. Les nouveaux fauteuils empilables Pluvia, dont le design est inspiré aux années 80, et Kilt, qui n'est pas sans rappeler le monde des Highlands et de ses fiers habitants, côtoient d'autres modèles désormais classiques de la collection Ethimo comme les bains de soleil Costes, le transat Elle et les lits pliants Elìt, dans un dialogue captivant et fascinant entre le design, les espaces, la mémoire et la nature.

Kollektionen für besondere Umgebungen

de Zwischen eklektischen Neuheiten und bewährten Erfolgen präsentiert Ethimo einige Neuheiten, in einem Stück vom Himmel, im Herzen des Mittelmeerraums, der sich durch die leuchtenden Farben der Keramik von Vietri und der Landschaft des Vesuvs auszeichnet. Pluvia, die neuen stapelbaren Stühle, die von den 80er Jahren inspiriert sind und Kilt, die an die Welt der stolzen Highlands-Bewohner erinnern, ergänzen die inzwischen zu Klassikern gewordenen Stücke der Ethimo-Kollektion wie die Sonnenliegen Costes, der Liegestuhl Elle und die Klappliegen Elìt, in einem ansprechenden und charmanten Dialog zwischen Design, Räumen, Erinnerung und Natur.

Ispirazioni fra memoria e attualità

it I tavoli e le sedute Agave, dalle forme sinuose che rievocano gli anni '50, incontrano la geniale fusione di manualità artigianale e combinazioni geometriche dell'Hotel Parco dei Principi, progettato da Gio Ponti. La collezione Allaperto cambia personalità a seconda dell'outfit e della location: Grand Hotel nel Monte Carlo Beach Hotel, meta del Gotha internazionale degli anni '30; Camping Chic sulle spiagge di St. Tropez, fra dolce vita e cultura hippie; Mountain su una terrazza in stile contemporaneo, affacciata sui boschi delle Dolomiti; Urban in una dimora a Milano Porta Nuova, con vista sullo skyline disegnato da architetti di fama internazionale.

Drawing inspiration from the past and present

en The Agave tables and chairs with their 50's-style curves encounter the genial blend of traditional craftsmanship and geometric patterns at the Hotel Parco dei Principi, designed by Gio Ponti. The Allaperto collection changes personality depending on the outfit and the location: Grand Hotel in the Monte Carlo Beach Hotel, a top destination for international elite of the 1930's; Camping Chic on the beaches of St. Tropez in a mixture of dolce vita and hippie culture; Mountain on a terrace in contemporary style, overlooking the forests of the Dolomites; Urban in a home in the Porta Nuova district of Milan, with a view of the skyline designed by international starchitects.

Inspirations entre mémoire et actualité

fr Les tables et les chaises Agave, aux formes sinuées rappelant les années 50, sont parfaitement adaptées à la fusion géniale entre la dextérité artisanale et les combinaisons géométriques de l'hôtel Parco dei Principi, conçu par Gio Ponti. La collection Allaperto change de personnalité en fonction de l'outfit et du lieu: Grand Hotel au Monte Carlo Beach Hotel, destination privilégiée de la jet-set internationale des années 30; Camping Chic sur les plages de Saint-Tropez, entre dolce vita et culture hippie; Mountain sur une terrasse en style contemporain, face aux forêts des Dolomites; Urban dans une habitation de Porta Nuova à Milan, avec vue sur le skyline dessiné par des architectes internationaux de renom.

Inspirationen zwischen Erinnerung und Aktualität

de Die Tische und Stühle Agave, mit den geschwungenen Formen, die an die 50er Jahre erinnern, treffen auf die geniale Mischung aus handwerklicher Geschicklichkeit und geometrischen Kombinationen des Hotels Parco dei Principi, das von Gio Ponti entworfen wurde. Die Kollektion Allaperto wechselt die Persönlichkeit je nach Outfit und Location: Grand Hotel in Monte-Carlo Beach Hotel, Ziel der internationalen Gesellschaftsspitze der 30er Jahre; Camping Chic an den Stränden von St. Tropez, zwischen Dolce Vita und Hippie-Kultur; Mountain auf einer Terrasse im zeitgenössischen Stil, mit Blick auf die Wälder der Dolomiten; Urban in einer Villa in Mailand, Porta Nuova; mit Blick auf die Skyline, die von den internationalen Stararchitekten entworfen wurde.

Trame e venature inedite

it Dalla ricerca Ethimo nel campo dei materiali, nasce una nuova collezione di tessuti acrilici che trasmettono le emozioni tattili e visive tipiche delle più raffinate situazioni indoor, garantendo le prestazioni richieste dagli ambienti outdoor. Trame morbide e superfici vellutate, melange cromatici, pattern geometrici, motivi tartan e pied-de-poule, consentono di creare il look più adatto ad ogni contesto, esprimendo in molteplici modi la personalità stilistica di ogni arredo. Ethimo propone inoltre la nuova variante Chocolate del teak decapato, uno dei materiali che da sempre contraddistinguono la sua collezione, con le venature evidenziate dalla spazzolatura superficiale, in una tonalità elegante e profonda, in alternativa alla tipica tonalità grigio argentea.

Unprecedented patterns and vein markings

en Ethimo's research into materials has led to a new collection of acrylic fabrics that convey the tactile and visual emotions that are typical of the most refined interior ambiances yet still guarantee the characteristics required outdoors. Soft weaves and velvety surfaces, chromatic melanges, geometric patterns, tartans and houndstooth designs enable the creation of the best look for each setting, expressing in various ways the style of each piece of furniture. In addition to the classic silvery grey shade of pickled teak, one of the materials that has always distinguished the brand, Ethimo also proposes the new Chocolate variant, where the vein markings stand out due to the brushed effect on the surface in an elegant, deep tone.

Trames et grains inédits

fr La recherche Ethimo dans le domaine des matériaux a donné naissance à une nouvelle collection de tissus acryliques transmettant des émotions tactiles et visuelles caractéristiques des intérieurs les plus raffinés, tout en garantissant les prestations requises pour les espaces extérieurs. Trames souples, surfaces veloutées, mélanges chromatiques, patterns géométriques, motifs tartan et pied-de-poule, pour créer le look le mieux adapté à chaque contexte et exprimer ainsi de multiples façons la personnalité stylistique de chaque espace. Ethimo propose également une nouvelle variante Chocolate du teck décapé, l'un des matériaux qui depuis toujours caractérise sa collection, dont les veines sont soulignées par le brossage en surface, dans une tonalité élégante et profonde, en alternative au gris argenté traditionnel.

Neuartige Maserungen und Texturen

de Aus der Ethimo-Materialforschung geht eine neue Kollektion von Acryl-Stoffen hervor. Sie vermitteln taktiler und visuelle Empfindungen, die für die schönsten Indoor-Umgebungen typisch sind und werden den Anforderungen gerecht, die für Outdoor-Umgebungen erforderlich sind. Weiche Texturen und samtige Oberflächen, Farbmischungen, geometrische Muster, Tartan- und Hahnentritt-Motive ermöglichen es, für jede Umgebung den am besten geeigneten Look zu gestalten, da sie die stilistische Persönlichkeit jedes Möbelstücks auf verschiedene Weisen zum Ausdruck bringen. Ethimo bietet auch die neue Chocolate-Variante aus gebeiztem Teakholz an, eines der Materialien, durch das sich seine Kollektion seit jeher unterscheidet. Alternativ zum typischen Silbergrau, werden die Maserungen durch die gebürstete Oberfläche in einem eleganten und tiefen Farbton hervorgehoben.

Nuovi progetti per la vita all'aria aperta

it L'estro, la tecnica e l'attenzione ai dettagli di Luca Nichetto si ritrovano in Pluvia, la nuova poltroncina impilabile in alluminio e fibra, caratterizzata dallo schienale dolcemente incurvato. Marc Sadler firma il nuovo concept della sedia in teak: linee decise e raffinate con un leggero slancio in avanti. Ribot è un mix perfetto di classicismo razionale declinato in chiave moderna, in cui la silhouette essenziale si associa alla solidità dei materiali. Kilt, in teak o in acciaio inox, nasce da un'idea di Marcello Ziliani, che disegna una fitta trama di corda tesa a creare un confortevole sostegno per il corpo, mescolando design contemporaneo e tradizione artigianale.

New designs for outdoor living

en The sheer creativity, techniques and attention to detail of Luca Nichetto come to the fore in Pluvia, the new stackable armchair in aluminium and fibre, with a gently curved back. Marc Sadler is the designer behind the new concept of teak chairs, bold and sophisticated and slightly forward-looking. Ribot is the perfect mix of rational classicism interpreted in a modern key where a minimal silhouette partners the solidity of the materials. Kilt, in teak or stainless steel, came about from an idea by Marcello Ziliani, who designed a tight weave of rope to create a comfortable support for the body, mixing contemporary design and traditional craftsmanship.

De nouveaux projets pour la vie en plein air

fr Pluvia exprime toute l'inspiration, la technique et l'attention pour les détails de Luca Nichetto dans ce tout nouveau fauteuil empilable en aluminium et fibres, au dossier agréablement arrondi. Marc Sadler signe le nouveau concept de la chaise en teck : des lignes précises et raffinées, légèrement élancées vers l'avant. Ribot est un mélange parfait du classicisme rationnel en version moderne, où l'essentialité de la silhouette s'associe à la solidité des matériaux. Kilt, en teck ou en inox, est né de l'imagination de Marcello Ziliani, qui a créé une dense trame de corde pour composer une agréable structure de soutien du corps, en mélangeant design contemporain et tradition artisanale.

Neue Projekte für das Leben im Freien

de Die Kreativität, Technik und Liebe zum Detail von Luca Nichetto finden sich in Pluvia wieder, dem neuen stapelbaren Stuhl aus Aluminium und Fasern, der sich durch eine sanft gewölbte Rückenlehne auszeichnet. Marc Sadler hat das neue Stuhl-Konzept aus Teakholz kreiert: entschlossene und elegante Linien, die leicht nach vorn geschwungen sind. Ribot ist eine perfekte Mischung aus rationalem Klassizismus in moderner Deutung, in der die nüchterne Silhouette mit der Beständigkeit der Materialien verbunden wird. Kilt, aus Teak-Holz oder Edelstahl, entsteht aus einer Idee von Marcello Ziliani, der eine dichte Textur aus gespanntem Seil kreiert, um eine komfortable Körperstütze zu schaffen, wobei zeitgenössisches Design und traditionelle Handwerkskunst vermischt werden.

Ispirazioni dai mitici anni '60 per Agave, teak massello con bordi sottili e curve morbide che invitano a sedersi, rilassarsi e godersi il momento

Agave has a definitely 60's feel. It is made in solid teak with thinned edges and soft curves that invite one to sit down, unwind and enjoy the moment / Inspiration aux années 60 pour Agave, en teck massif aux profils fins et sinueux, véritable invitation à s'asseoir pour se relaxer et profiter du moment / Inspirationen aus den legendären 60er Jahre kennzeichnen Agave, massives Teakholz mit dünnen Kanten und weichen Wölbungen, die zum Sitzen und Entspannen einladen, um den Augenblick zu genießen

La cultura della materia

it Una selezione accurata dei materiali, la passione per l'ambiente, la manualità artigianale si uniscono alle tecnologie più innovative, creando elementi d'arredo curati in ogni particolare. Dai legni pregiati provenienti da coltivazioni a ricrescita controllata, alle fibre sintetiche riciclabili, che ricreano la sensazione dei materiali organici, alle vernici che rispettano l'ambiente con colori ispirati alla natura: ogni passaggio della produzione è scandito dalla qualità della materia che conferisce a ciascun progetto un valore esclusivo.

The culture of matter

en The careful selection of materials, passion for the environment and manual artisan skills team with the most innovative technologies, creating furnishing elements with attention paid to every detail. From fine wood from controlled regrowth cultivations, to recyclable synthetic fibres, which recreate the sensation of organic materials and eco-friendly paints with colours inspired by nature. Each stage of production is marked by the quality of matter, giving each project exclusive value.

La culture de la matière

fr Sélection rigoureuse des matières, passion pour l'environnement et savoir-faire artisanal se conjuguent avec les technologies les plus novatrices pour créer des éléments d'ameublement soignés dans les moindres détails. Des bois nobles provenant de cultures à reforestation contrôlée mais aussi des fibres synthétiques recyclables reproduisant la sensation des matériaux naturels et des peintures respectueuses de l'environnement dont les couleurs s'inspirent de la nature: chaque étape de la production se fait sous le signe de la qualité de la matière pour conférer à chaque produit une valeur unique.

Die Kultur der Materie

de Eine sorgfältige Auswahl der Materialien, die Leidenschaft für die Umwelt, das handwerkliche Geschick verbinden sich mit den modernsten Technologien und schaffen bis ins kleinste Detail gepflegte Einrichtungselemente. Von den Edelhölzern aus nachhaltiger Forstwirtschaft über die wiederverwertbaren Kunstfasern, die das Gefühl organischer Werkstoffe vermitteln bis hin zu den umweltschonenden Lacken mit von der Natur inspirierten Farben: jeder Schritt der Produktion ist von der Qualität der Materie gekennzeichnet, die jedem Projekt einen exklusiven Wert verleiht.

Qualità e responsabilità certificate

it La qualità Ethimo è un valore che prende una forma concreta e tangibile, dal progetto alla scelta dei materiali, attraverso tutte le fasi di lavorazione, fino alla vita del prodotto nel tempo, come testimoniato dalla certificazione ISO 9001 sull'efficienza del sistema di gestione della qualità dei processi, prodotti e servizi. Anche la gestione forestale responsabile è per Ethimo un concetto fondamentale, in sintonia con la certificazione FSC™ Forest Stewardship Council™ che attesta la provenienza di tutti i legni da coltivazioni a ricrescita controllata, responsabile e in armonia con le comunità locali ed i diritti dei lavoratori. Tutti i prodotti Ethimo in legno sono certificati FSC™ Forest Stewardship Council™.

Certified quality and responsibility

en The quality of Ethimo is a value that assumes a tangible shape, from the design to the choice of materials, through all stages of production and for the whole life of the product, as proven by the ISO 9001 certification for the efficiency of the quality assurance management system in place for processes, products and services. For Ethimo, responsible forest management is also a fundamental concept: the FSC™ Forest Stewardship Council™ certification proves that the wood all comes from environmentally responsible forests with controlled replanting, managed with respect for local communities and workers' rights. All Ethimo wood products are FSC™ Forest Stewardship Council™ certified.

Ethimo is an FSC™ Forest Stewardship Council™ certified company, guaranteeing the quality of the materials used and respect for nature. Certificate SGSCH-COC-090034

The mark of
responsible forestry
FSC® C129240

Qualité et responsabilité certifiées

fr La qualité Ethimo est une valeur à la forme concrète et tangible, depuis le projet jusqu'au choix des matériaux, à travers toutes les phases de la production, jusqu'à la durée de vie du produit, comme en témoigne la certification ISO 9001 pour l'efficacité du système de gestion de la qualité des processus, des produits et des services. La gestion responsable des forêts est également un concept fondamental pour Ethimo qui a obtenu la certification FSC™ Forest Stewardship Council™ attestant la provenance de tout le bois utilisé de cultures à reforestation contrôlée, responsable, en harmonie avec les communautés locales et dans le respect des droits des travailleurs. Tous les produits Ethimo sont certifiés FSC™ Forest Stewardship Council™.

Zertifizierte Qualität und Verantwortung

de Die Ethimo-Qualität ist ein Wert, der eine konkrete und greifbare Form annimmt, von der Gestaltung bis zur Auswahl der Materialien, über alle Verarbeitungsphasen, für die gesamte Lebensdauer des Produkts, wie durch die Zertifizierung ISO 9001 über die Effizienz des Qualitätsmanagementsystems der Prozesse, Produkte und Dienstleistungen belegt wird. Auch die verantwortungsvolle Waldwirtschaft ist für Ethimo ein grundlegendes Konzept, im Einklang mit der FSC™ Forest Stewardship Council™ Zertifizierung, die belegt, dass nur Holz aus kontrolliertem und verantwortungsvollem Anbau und in Harmonie mit den lokalen Gemeinschaften und den Rechten der Arbeitnehmer verwendet wird. Alle Ethimo Holzprodukte sind FSC™ Forest Stewardship Council™ zertifiziert.

Materials

Teak

it Il teak selezionato da Ethimo proviene dalle piantagioni regolamentate di Thailandia e Indonesia. È un materiale eccellente, di elevata qualità, ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Teak

en Ethimo teak comes from controlled forest plantations in Thailand and Indonesia. The result is an excellent, high quality material, ideal for outdoor furniture. It is particularly resistant to changes in temperature, water, humidity and saltwater.

Teck

fr Le teck sélectionné par Ethimo provient de plantations réglementées situées en Thaïlande et en Indonésie. Le teck est une excellente matière, de très grande qualité, idéale pour réaliser des meubles d'extérieur dans la mesure où il est extrêmement résistant aux changements de température, à l'eau, à l'humidité et au sel.

Teak

de Das von Ethimo ausgewählte Teakholz stammt aus den kontrollierten Plantagen Thailands und Indonesiens. Es ist ein hervorragendes Material hochwertiger Qualität, ideal für die Herstellung von Gartenmöbeln, da es auch bei Temperaturschwankungen, Wasser, Feuchtigkeit und Salz extrem haltbar ist.

01
TeakTeak decapato

it Per donare al teak un fascino vintage, questo viene trattato con la finitura decapata, cioè dapprima spazzolato rendendo la superficie più ruvida e invecchiata, privandola della naturale patina oleosa, poi tonalizzato. Nel caso della finitura decapata "grey", al teak spazzolato viene applicato un trattamento che gli conferisce una patina grigia argentea con effetto invecchiato. Nella versione "chocolate", dopo la spazzolatura, la superficie è trattata invece con un colore più caldo e intenso che lascia comunque trasparire l'originale venatura del teak. Queste finiture proteggono il legno dall'ossidazione per lungo periodo. Per la manutenzione annuale, sono disponibili appositi kit di ripristino.

Pickled teak

en To give teak vintage charm, it is "pickled", in other words, it is firstly brushed to give the surface a rougher, older appearance, and remove the natural oily coating. It is then tinted. For the "grey" pickled finish, after being brushed, the teak is treated to give it a silvery-grey coating with an antique effect. For the "chocolate" version, after being brushed, the surface is treated with a warmer, more intense colour that still allows the original vein markings of the teak to shine through. These finishes give the wood long-lasting protection from oxidation. We also supply special kits for annual maintenance.

Teck décapé

fr Pour donner au teck un certain charme d'antan, celui-ci doit être décapé, c'est-à-dire brossé pour rendre la surface plus râche et la vieillir, en lui ôtant sa couche huileuse naturelle, et ensuite teint. En cas de décapage « grey », le teck brossé subit un traitement particulier qui lui donne un aspect gris argenté avec un effet vieilli. Pour la version « chocolate », la surface, après avoir été brossée, est traitée avec une couleur plus chaude et intense qui ne dissimule toutefois pas les veines originales du teck. Ces finitions protègent le bois à long terme contre l'oxydation. Des kits sont disponibles pour la maintenance annuelle.

Gebeiztes Teak

de Um dem Teak einen Vintage-Charme zu verleihen, wird es mit dem gebeizten Finish behandelt, d.h. es wird zuerst gebürstet, um eine rauhe und antiquierte Oberfläche zu erhalten und den natürlichen öligen Film zu entfernen und anschließend getönt. Im Fall der „grau“ gebeizten Oberfläche wird auf dem gebürsteten Teak eine Behandlung angewendet, die ihm eine silbergraue Patina mit Antik-Effekt verleiht. In der Version „Chocolate“ wird die Oberfläche nach dem Bürsten mit einer wärmeren und intensiveren Farbe behandelt, die die ursprüngliche Maserung des Teakholzes in jedem Fall durchscheinen lässt. Diese Oberflächenbehandlungen schützen das Holz langfristig vor Oxidation. Für die jährliche Pflege sind spezielle Pflegekits erhältlich.

05
Pickled teakCO
Pickled teak
Chocolate

Mogano verniciato

it Per gli elementi di arredo in legno verniciato, Ethimo ha scelto il mogano proveniente da piantagioni indonesiane regolamentate. Il mogano è un legno molto resistente e adatto all'uso all'esterno, utilizzato comunemente anche per la costruzione delle imbarcazioni. Dopo l'essiccazione e prima della verniciatura, il legno viene trattato con un prodotto sigillante che chiude i pori rendendolo impermeabile. Le vernici utilizzate sono resistenti agli agenti atmosferici e alle intemperie, garantite da una speciale procedura per il fissaggio del colore.

Painted mahogany

en As for painted wooden furniture, Ethimo chooses mahogany wood coming from regulated Indonesian plantations. Mahogany is a very durable hardwood, extremely suitable for outdoor use, also commonly used in boat building. After drying and before painting, the wood is treated with a sealant which closes the pores making it waterproof. The paints used are weather resistant and weatherproof, guaranteed by a special procedure for fixing the colour.

Acajou peint

fr Pour ses meubles en bois verni, Ethimo a choisi l'acajou provenant de plantations indonésiennes réglementées. L'acajou est un bois extrêmement résistant et adapté à l'utilisation en extérieur. Il est communément employé pour la construction des bateaux. Après le séchage et avant le vernissage, le bois est traité avec un produit d'étanchéité qui obstrue les pores, imperméabilisant ainsi le bois. Les peintures utilisées sont résistantes aux agents atmosphériques ainsi qu'aux intempéries, garanties par une procédure spéciale pour la fixation de la couleur.

Lackiertes Mahagoni

de Für die Einrichtungselemente aus lackiertem Holz hat Ethimo von kontrollierten indonesischen Plantagen stammendes Mahagoni gewählt. Mahagoni ist ein sehr widerstandsfähiges Holz, gut für den Außenbereich geeignet und wird auch im Schiffsbau verwendet. Nach der Trocknung und vor der Lackierung wird das Holz mit einem Versiegelungsprodukt behandelt, das die Poren schließt und es undurchlässig macht. Die verwendeten Lacke sind wasserfest und durch eine Spezialbehandlung zur Farbfestigung garantiert.

Stromboli BlackCorde in polipropilene e acrilico

it Le corde impiegate nelle collezioni Knit e Kilt sono specifiche per l'utilizzo all'esterno, realizzate in materiale sintetico estremamente resistente ai raggi UV, all'abrasione e agli eventi atmosferici. Differenti per sezione (piatta e rotonda) e composizione (polipropilene nella Flat Rope, acrilico nella Round Rope), sono impiegate per creare sedute e schienali intrecciati estremamente funzionali e confortevoli.

Ropes in polypropylene and acrylic

en The ropes used in the Knit and Kilt collections are made specially for outdoor use and made in synthetic material that is highly resistant to UV rays, abrasion and atmospheric events. They are different in their cross-section (flat and round) and composition (polypropylene for the Flat Rope, acrylic for the Round Rope), and are used to create extremely practical and comfortable woven chairs and chair-backs.

Cordes en polypropylène et acrylique

fr Les cordes utilisées pour les collections Knit et Kilt sont spécifiques pour un usage en extérieur et sont fabriquées avec un matériau synthétique extrêmement résistant aux rayons UV, à l'abrasion et aux agents atmosphériques. Avec leurs différentes sections (plates ou rondes) et compositions (polypropylène pour la Flat Rope et acrylique pour la Round Rope), elles sont utilisées pour créer des assises et des dossier tressés extrêmement fonctionnels et confortables.

Seile aus Polypropylen und Acryl

de Die für die Kollektionen Knit und Kilt verwendeten Seile sind speziell für den Außenbereich geeignet. Sie sind aus synthetischem Material und extrem widerstandsfähig gegen UV-Strahlen, Abrieb und Witterungseinflüsse. Sie unterscheiden sich nach Querschnitt (flach oder rund) und Zusammensetzung (Polypropylen im Flat Rope, Acryl im Round Rope) und werden für die Gestaltung von extrem funktionellen und komfortablen Sitzen und Rückenlehnen verwendet.

Materials

Etwick

it La fibra Etwick di Ethimo è un materiale sintetico riciclabile che riproduce l'aspetto del midollino assolutamente inattaccabile da agenti atmosferici e dal trascorrere del tempo. È intrecciata a mano ed ha una finitura ruvida che la rende perfettamente naturale al tatto e alla vista.

Etwick

en Ethimo Etwick fiber is completely recyclable and recreates wicker's natural look. It perfectly withstands the elements and the passage of time. It is handwoven and it has a rough finish which makes it perfectly natural to the touch and sight.

Etwick

fr La fibre Etwick d'Ethimo est une matière synthétique recyclable qui reproduit l'aspect de l'osier. Elle est absolument inaltérable par les agents atmosphériques et par le passage du temps. Tressée à la main, elle se distingue par une finition rugueuse qui fait d'elle une matière parfaitement naturelle aussi bien au toucher qu'au regard.

Etwick

de Die Faser Etwick von Ethimo ist ein synthetisches Material, das recyclebar ist und das Muster von Korbgeflecht nachbildet, doch dabei absolut vor Witterungseinflüssen und dem Zahn der Zeit verschont bleibt. Es wird von Hand geflochten und hat eine raue Oberfläche, die es beim anfassen und im aussehen vollkommen natürlich erscheinen lässt.

20 Bark

21 White

Lightwick

it La fibra Lightwick di Ethimo è un intreccio formato da un filo base di diametro 2 mm a sezione rotonda con cui sono realizzate maglie diverse che danno vita ad una trama irregolare molto confortevole. Combinata con la struttura di alluminio, è ideale per realizzare elementi dall'estrema leggerezza e resistenza.

Lightwick

en Ethimo Lightwick fibre is a weaving composed of a wire base with a diameter of 2 mm with a round section used to create different meshes carrying out an irregular, very comfortable pattern. Combined with the aluminium frame, it gives shape to outdoor elements characterized by extreme lightness and strength.

Lightwick

fr La fibre Lightwick d'Ethimo est constituée d'un tressage formé d'un fil de base de 2 mm de diamètre à section ronde permettant de réaliser des mailles différentes donnant naissance à des trames irrégulières particulièrement confortables. Associées à des structures en aluminium, ces fibres sont idéales pour la réalisation d'éléments d'une résistance et d'une légèreté extrêmes.

Lightwick

de Die faser Lightwick von Ethimo ist ein Flechtwerk, das aus einem Grundmaterial mit 2 mm Durchmesser besteht, das einen runden Querschnitt aufweist und mit dem unterschiedliche Maschen realisiert werden, die ein unregelmäßiges, sehr ansprechendes Muster erzeugen. Mit der Aluminiumstruktur kombiniert, ist es ideal für die Herstellung von Elementen extremer Leichtigkeit und Widerstandsfähigkeit.

22 Warmgrey

23 Warmwhite

Natwick

it La fibra Natwick di Ethimo è una fibra sintetica riciclabile con finitura naturale color sabbia, la cui sezione semicircolare consente di realizzare intrecci di particolare leggerezza e dinamicità. Estremamente resistente ad agenti atmosferici e ad usura.

Natwick

en Natwick fibre by Ethimo is a recyclable synthetic fibre in a natural and sand-colour finish, whose semi-circular section means it can be used for especially light, dynamic weaving. Extremely resistant to atmospheric agents and wear.

Natwick

fr La fibre Natwick d'Ethimo est une fibre synthétique recyclable à finition naturelle couleur sable dont la section semi-circulaire permet de réaliser des tressages particulièrement légers et dynamiques. Elle est extrêmement résistante à l'usure et aux agents atmosphériques.

Natwick

de Die Natwick-Faser von Ethimo ist eine wiederverwertbare Kunstfaser mit natürlicher und sandfarbener Ausführung, deren halbrunder Querschnitt besonders leichte und dynamische Flechtarbeiten ermöglicht. Äußerst witterungs- und verschleißfest.

Pvc

it Nella costante ricerca di materiali nuovi e specifici per l'outdoor, Ethimo introduce il Pvc con anima in nylon, realizzato con sezioni e colori diversi. Questo materiale ha la caratteristica di eccezionale resistenza e di straordinaria portanza, nonché di brillantezza del colore e della finitura.

Pvc

en In its constant research for new materials, suited specifically for outdoor use, Ethimo is pleased to introduce Pvc with a nylon core, made with different sections and colours. This material is exceptionally resistant and sturdy, brightly coloured and superbly finished.

Pvc

fr Constamment à la recherche de nouveaux matériaux spécifiques pour l'outdoor, Ethimo introduit le PVC avec une âme en nylon, réalisé avec des sections et des couleurs différentes. Ce matériau est connu pour sa résistance exceptionnelle et sa portance extraordinaire, ainsi que pour ses couleurs et ses finitions brillantes.

Pvc

de Auf der ständigen Suche nach neuen und speziellen Materialien für den Outdoor-Bereich, bringt Ethimo das PVC mit Nylonkern auf den Markt, das in unterschiedlichen Querschnitten und Farben hergestellt wird. Dieses Material zeichnet sich durch seine ausgezeichnete Beständigkeit und außergewöhnliche Tragfähigkeit aus, sowie seine glänzende Farbe und Oberfläche.

Materials

Pietra ceramica – Laminam

it La ceramica Laminam è un materiale ideale per l'utilizzo all'esterno, estremamente resistente al gelo, ad usura, graffi e abrasioni. Adatto per realizzare top e piani per tavoli, perché antibatterico e totalmente compatibile con le sostanze alimentari. Le finiture scelte da Ethimo riproducono l'autenticità della pietra naturale o l'effetto resinato nelle tonalità nero lavagna e grigio tortora.

Ceramic–stone –Laminam

en Laminam ceramic is an ideal material for outdoor use, extremely resistant to frost, wear, scratches and abrasion. Suitable for counters and table tops because it is antibacterial and totally compatible with foodstuffs. The finishes chosen by Ethimo reproduce the authenticity of natural stone or the resin-coated effect in slate black and dove grey.

Pierre céramique – Laminam

fr Extrêmement résistante au gel, à l'usure, aux rayures et à l'abrasion, la céramique Laminam est une matière idéale en extérieur. Antibactérienne et totalement compatible avec les substances alimentaires, elle est parfaite pour réaliser des plans et des plateaux de table. Les finitions choisies par Ethimo reproduisent l'authenticité de la pierre naturelle ou l'effet résine dans les coloris tableau noir et gris tourterelle.

Laminam–Keramik

de Die Laminam-Keramik ist ein ideales Material für die Verwendung im Außenbereich, besonders frostbeständig, verschleiß-, kratz- und abriebfest. Geeignet für Abdeckplatten und Tischplatten, weil antibakteriell und völlig kompatibel mit Lebensmitteln. Die von Ethimo gewählten Verarbeitungen geben die Authentizität des Natursteins oder den Harzeffekt in den Farbtönen Schiefer Schwarz und Taubengrau wieder.

Terracotta

it L'argilla con cui sono realizzate le lampade da giardino Step e Tour si trova naturalmente in una delle più belle aree della Toscana. L'argilla prende vita tra le mani di esperti lavoratori delle fornaci della Val di Chiana, in provincia di Siena, adattandosi alla forma dello stampo. Tolto dallo stampo, il pezzo viene purificato dalle imperfezioni. Dopo una lenta ed omogenea fase di disidratazione, i prodotti vengono disposti nei forni per la cottura, che necessita di circa 3 giorni, raggiungendo una temperatura massima di circa 1000 gradi.

Terracotta

en The clay which the garden lamps Step and Tour are made of, occurs naturally in one of the most beautiful areas of Tuscany. The clay comes to life in the hands of experienced workers in the furnaces of the Val di Chiana, adapting to the shape of the mold. Removed from the mold, the workpiece is purified by imperfections. After a slow and homogeneous phase of dehydration, the products are placed in ovens for cooking, which requires about 3 days, reaching a maximum temperature of about 1000 degrees.

Terre cuite

fr L'argile permettant de réaliser les lampes de jardin Step et Tour est naturellement présente dans un écosystème très particulier du territoire de l'une des plus belles zones de Toscane. L'argile prend vie entre les mains des potiers experts du Val di Chiana, dans la province de Sienne, en s'adaptant à la forme du moule. Une fois extrait de ce dernier, l'objet est purifié de ses imperfections. Après une phase de déshydratation lente et homogène, les produits sont disposés dans les fours de cuisson, une étape qui dure environ 3 jours et atteint une température maximale d'environ 1000 degrés.

Terrakotta

de Der Ton, aus dem die Gartenlampen Step und Tour hergestellt werden, kommt aus einer der schönsten Gegenenden der Toskana liegt. Der Ton wird unter den Händen erfahrener Handwerker an den Brennöfen des Val di Chiana, in der Provinz Siena zum Leben erweckt und passt sich der Form an. Sobald es aus der Form genommen wurde, wird das Stück von den Unregelmäßigkeiten befreit. Nach einer langsam und gleichmässigen Phase der Austrocknung werden die Produkte zum brennen in die Öfen gebracht, was ca. drei Tage erfordert und wobei eine Höchsttemperatur von ca. 1000 Grad erreicht wird.

Metallo

it Il metallo Ethimo è lavorato e trattato con processi che ne garantiscono la qualità, la resistenza e la durabilità all'esterno. Tutta la ferramenta utilizzata è in acciaio inossidabile e la verniciatura è effettuata con vernici a polveri epossidiche specifiche per l'uso all'esterno. Le vernici utilizzate sono prive di solventi, non contengono voc (composti organici volatili), non contengono metalli pesanti tossici come cromo e piombo, sono riciclabili al 99%.

Metal

en Ethimo metal is processed and treated to ensure optimal quality, rust resistance, strength and durability when used outdoors. All the hardware used is stainless steel and the paint is made with epoxy powder paints specific for outdoor use. The paints used are solvent-free, they do not contain any VOC (volatile organic compounds) or any toxic heavy metals such as chromium and lead, they are 99% recyclable.

Métal

fr Le métal d'Ethimo est travaillé et traité à l'aide de procédés qui en garantissent la qualité, la résistance et la durabilité en extérieur. Toute la quincaillerie utilisée est réalisée en acier inoxydable. La peinture est effectuée avec des peintures en poudre époxy spécifiquement prévues pour une utilisation en extérieur. Les peintures utilisées sont sans solvant, elles ne contiennent ni COV (composés organiques volatils), ni métaux lourds toxiques comme le chrome ou le plomb. Elles sont également recyclables.

Metall

de Das Metall von Ethimo wird mit Verfahren bearbeitet und behandelt, die die Qualität, die Strapazierfähigkeit und die Beständigkeit im Außenbereich garantieren. Alle verwendeten Metallteile bestehen aus rostfreiem Stahl und die Lackierung erfolgt mit speziellen Epoxidpulverlacken für den Außenbereich. Die verwendeten Farben sind lösemittelfrei, sie enthalten keine VOC (volatile organic compounds) und keine toxischen Schwermetallen wie Chrom und Blei, sie sind 99% recyclebar.

Materials

Tessuti

it Tutti i tessuti della collezione Ethimo sono specifici per l'uso esterno. Oltre ad una particolare morbidezza al tatto, offrono la massima resistenza ai raggi UV e garantiscono una lunga durata. Un trattamento specifico li protegge dai liquidi e dallo sporco e li rende facili da pulire, con una spugna morbida e sapone neutro, oppure in lavatrice a basse temperature. In particolare i tessuti Waterproof sono spalmati con una pellicola di PVC che li rende impermeabili al 100%.

Fabrics

en All the fabrics in the Ethimo collection are specifically made for outdoor use. Other than the particular softness to the touch, they offer the maximum resistance to UV rays and guarantee a long life. A specific treatment protects them from liquids and dirt and makes them easy to clean, with a soft sponge and mild soap, or in a washing machine at low temperatures. Especially all Waterproof fabrics are characterized by special PVC layer, which makes them 100% waterproof.

Tissus

fr Tous les tissus de la collection Ethimo sont spécialement conçus pour l'utilisation en extérieur. En plus d'être particulièrement douillets, ils offrent une résistance maximale aux rayons UV et garantissent une longue durée. Un traitement spécifique les protège des liquides, de la saleté et les rend faciles à nettoyer, avec une éponge douce et du savon neutre, ou en machine à laver à basse température. En particulier, les tissus imperméables sont revêtus d'un film de PVC qui les rend imperméables à 100%.

Stoffe

de Alle Stoffe der Kollektion Ethimo sind für den Outdooreinsatz eignet. Die Stoffe fühlen sich nicht nur extrem weich an, sondern sind auch äußerst UV-beständig und sehr langlebig. Eine spezifische Behandlung schützt sie vor Flüssigkeiten und Schmutz und gestattet eine einfache Reinigung mit einem weichen Schwamm und neutraler Seife oder in der Waschmaschine bei niedrigen Temperaturen. Das besondere der beschichteten Waterproofs Stoffe, sie sind zu 100% wasserdicht.

LimeCopertine di riposo

it Le copertine di riposo sono realizzate in poliestere (330 gr/mq) reso impermeabile al 100% grazie ad uno strato di PVC. Il tessuto è inoltre resistente ai raggi UV, alle intemperie ed è ideale per l'utilizzo anche in condizioni ambientali estreme o nella nautica. Le cuciture sono sigillate con una membrana impermeabile accoppiata a caldo. Dotate di prese d'aria per assicurare l'aerazione e di coulisse regolabili per la chiusura.

Rain cover

en The rain covers are made of polyester (330g/m²) and are 100% waterproof thanks to a layer of PVC. The fabric is also resistant to UV rays and bad weather and it is also ideal for use in extreme environmental conditions or on boats. The seams are sealed with a hot-rolled waterproof membrane. Equipped with air intakes to ensure ventilation and an adjustable drawstring for closing.

Housse de pluie

fr Réalisées en polyester (330 g/m²), les housses de pluie sont imperméabilisées à 100 % grâce à une couche de PVC. Le tissu résiste également aux rayons UV et aux intempéries. Il peut sans problème être utilisé même dans des conditions environnementales extrêmes ou pour le nautique. Les coutures sont scellées à l'aide d'une membrane imperméable thermosoudée. Elles sont dotées de prises d'air pour assurer la ventilation ainsi que de cordons de serrage réglables pour la fermeture.

Regenschutz

de Die Abdeckplanen bestehen aus Polyester (330 g/m²), zu 100 % wasserabweisend dank einer PVC-Schicht. Der UV- und Unwetterbeständige Stoff ist ideal auch für Anwendungen unter extremen Wetterbedingungen oder in der Schifffahrt. Die Nähte sind mit einer wasserundurchlässigen, im Heißverfahren aufgeklebten Membran versiegelt. Mit Luftschlitzten zur Belüftung und Tunnelriemen zum Schließen.

Materials

Tessuti Prestige

it Accanto alla gamma di tessuti "ready to order", Ethimo propone la nuova collezione di tessuti "Prestige". Ispirati nell'aspetto alle trame e alla matericità dei tessuti per l'interior design, presentano tutte le caratteristiche di un prodotto specifico per l'outdoor; l'acrilico è tessuto in modo da ottenere una straordinaria morbidezza, la grammatura è molto pesante (700-920 gr/mlt) e le gradazioni di colore si ispirano ai toni naturali, da usare in combinazione tra loro. Rappresentano una proposta ulteriore per rendere ancora più esclusivo il proprio ambiente outdoor.

Prestige Fabrics

en In addition to its range of "ready to order" fabrics, Ethimo is pleased to present its new collection of "Prestige" fabrics. Inspired by the weaves and texture of fabrics used in interior design, they have all the characteristics needed for outdoor use: acrylic is woven in such a way as to obtain an extraordinarily soft fabric, the grammage is very high (700-920 g/linear metre) and the colours are inspired by natural tones that can be mixed and matched. They represent a further proposal to make the outdoor areas around the home even more exclusive.

Tissus Prestige

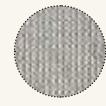

fr Outre sa gamme de tissus « prêts à commander », Ethimo propose également une nouvelle collection de tissus « Prestige » à l'aspect inspiré des trames et des matières des tissus d'intérieur, mais avec toutes les caractéristiques d'un produit spécifique pour l'extérieur : l'acrylique est tissé de façon à obtenir une souplesse extraordinaire, le grammage est très lourd (700-920 gr/mlt) et les nuances de couleur s'inspirent des tons naturels à combiner entre elles. Une nouvelle proposition pour un espace extérieur encore plus exclusif.

Prestige-Stoffe

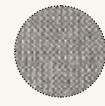

de Neben der Auswahl an Stoffen „Ready to Order“, bietet Ethimo die neue Stoffkollektion „Prestige“ an. Der Look, der an den Texturen und dem Material der Stoffe für das Interior Design inspiriert ist, hat alle Eigenschaften eines spezifischen Outdoor-Produkts. Das Acryl ist so gewebt, dass eine außergewöhnliche Weichheit erzielt wird, die Grammatür ist besonders hoch (700-920 g/lfm) und die Farbnuancen sind von den Naturtönen inspiriert, die in Kombination miteinander verwendet werden.

Collection and technical information – 2018

Come leggere le informazioni tecniche

Per ogni collezione sono indicati i materiali e/o i colori in cui è disponibile e gli eventuali tessuti di completamento. Per ogni elemento sono riportate caratteristiche, dimensioni, peso, numero di pezzi contenuti nell'imballo e relativo volume.

How to read the technical information

For each collection, the materials and/or colours available and any complementary fabrics are indicated. For each element are listed size, weight, features and quantity contained in the packaging and the relative volume.

Comment lire les informations techniques

Pour chaque collection, les matériaux et/ou les coloris disponibles ainsi que les tissus complémentaires éventuels sont indiqués. Pour chaque élément sont indiqués: les caractéristiques, les dimensions, le poids, le nombre d'articles contenus dans l'emballage et leur volume respectif.

Wie Sie die technischen Informationen lesen

Für jede Kollektion werden die Materialien und/oder die Farben angegeben, in denen die eventuellen Gewebe erhältlich sind. Für jedes Element werden Abmessungen, Gewicht, Charakteristika und die jeweilige Verpackung angegeben.
