### **WE REDUCE**

We are constantly working to further optimize all processes and resources so that our children inherit a better world.

### **WE REUSE**

Our products are designed to withstand temperature limits and extreme weather elements. The long life of our products helps to reduce waste and makes way for more responsible consumption.

### **WE RECYCLE**

Our design and development team have created the first collection of outdoor lamps made exclusively from recycled plastic from the seas and oceans (Greta P 92).

### **RECYCLABLE**

All our products are recyclable. In addition, we work with specialised companies so that all our waste generated in our different processes is processed and recycled thoroughly.

*passionate creators of*

# OUTDOOR & INDOOR MOMENTS

---

**WE WANT  
TO BE THE  
LIGHT OF  
YOUR BEST  
MOMENTS**

**DESIGNERS  
& MANUFAC-  
TURERS  
OF MEMORIES**

**PROUD  
MAKERS  
OF  
“BE HAPPY”  
SPIRIT**

# Sun is our energy.

---

The power of the sun is unimaginable. It is capable of generating life, inspiring our personality or changing our state of mind in seconds. At Newgarden we know about its power. That is why, since our beginnings, its energy has been the protagonist in our products. This is why we have ensured that the majority of our designs are available with a solar option.

# Nature is our mother.

---

And we love her as if she were our mother. Newgarden works every day to improve all our processes in order to protect and care for our environment. We are not content with all of our products being recyclable: we have designed Greta, a collection of lamps made exclusively from recycled materials (P 92).

## PASSIONATE ABOUT HANDMADE AND NATURAL FIBERS

Natural fibres such as hemp or bamboo are widely represented in our collection. Hand-made, they are able to transport us to nature and the Mediterranean just by looking at them.

## THINK LOCAL

We collaborate with specialised local producers within their regions - this helps to grow their economies and support infrastructure development.

## NATURE LOVERS

All our products are 100% recyclable and have a long life span, helping to reduce waste and promoting responsible consumption.

## FRIENDS OF THE SEA

For every lamp in the Greta Collection (P 92) that we make, we help to give a second life to the plastic collected from the seas and oceans.

## 2 - POLYETHYLENE TEXTURES

The finishes of Newgarden products made of polyethylene have a visually smooth and soft granulated finish that is very pleasant to the touch.

The rustic finish can be found in a very specific selection of flowerpots.

## 3- COLOURS & FINISHES

### TRANSLUCENTS polyethylene & ABS

### OPAQUES polyethylene

### Other materials

## 4- USE ACCORDING TO IP

We are going to explain in a very simple way the possibilities of use of Newgarden products according to their IP (index of protection of the electrical or electronic system against external agents)

### IP20

Newgarden products with IP20 can only be used indoors, the electrical system, switches or cables must be protected from direct contact with water. Remember that although the product is made of Polyethylene resistant to the outside, this electrical system is designed for **indoor use only**.

### IP43

Newgarden products with IP 43 / 44 can be used outdoors, it is protected against dust and weak and very moderate rain. **If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In the event of rain or very adverse weather conditions, it should be protected from the elements to avoid future problems.

### IP44

### IP54

Newgarden products with IP 54 **can be used outdoors, are protected against dust and light rain.** If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity. Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.

### IP65

Newgarden products with IP 65 **can be used outdoors, they are airtight against dust and rain. If this product also has accessories made of natural fibres, wood or metal parts, it is advisable to protect it from direct contact with water and humidity.** Store in a dry place after use. In case of rain or very adverse weather conditions it must be protected from the weather to avoid future problems.

### IP68

Newgarden products with IP 68 can be used outdoors, they are airtight against dust and rain. **It is also floating (not submersible) so you can use it in your pool.** In case of very adverse weather conditions it must be protected from the elements to avoid future problems.

MOBSC120BXNW

Technical drawing of the Woody mug showing front and side views with dimensions:

- Front View (Left):** Shows a mug with a total height of 70, a base diameter of 39, and a handle height of 21.8. A yellow pencil is shown inside the mug for scale.
- Side View (Right):** Shows the mug's profile with a top diameter of 36 and a base diameter of  $\varnothing 26,5$ .

Dimensions (cm)

  Rechargeable Battery | Play: Light & Music | Indoor & outdoor use —————  IP54   LUMWD070PLNW

  Solar & Rechargeable Battery | Indoor & outdoor use —————  IP65   LUMWD070SSNW

• LUMWD070PLNW  
LUMWD070SSNW

In the section of pots you will find pots with double bottoms and pots without double bottoms.

h double

=

without double  
ns

The diagram consists of two illustrations of a cup. The left illustration shows a simple, empty cup. The right illustration shows a cup filled with brown soil, containing a green plant with roots extending into the soil. An equals sign (=) is placed between the two cups.

**AZALEA 30**

Technical drawing showing the dimensions of the AZALEA 30 planter:

- Overall height: 24,7
- Top rim outer diameter: Ø30
- Top rim inner diameter: Ø22
- Base diameter: Ø17,5
- Height of the lower section: 8
