VONDOM

+15 Years of innovation

Instagram

LinkedIn

At Vondom, we have always been known for offering innovative and unique designer outdoor furniture. Since we began our trajectory in 2008 manufacturing designer planters and furniture with simple lines, our hallmark has been innovation. These new collections of outdoor furniture respond to an evolution marked by our search for greater sustainability, incorporating natural, 100% recyclable materials.

Our Mission

Passion for Design

Our challenge has been to inspire a little life in every Vondom piece, achieving balance between every atmosphere, shape or form.

Our factory

This is down to the firm business strategy that guides every aspect of the company: design, production, quality, marketing and promotion. In particular, the ongoing commitment to R+D+I.

 Beneixida
València (Spain)

 Total area: 64.000 m²
Build: 39.000 m²

 150 employees

We have added self-consumption by installing photovoltaic solar energy, with 1021 KWp of power. This photovoltaic installation is capable of producing 1,429,998 KWh per year, which will prevent approximately 908,895 Kgs of CO2 emissions into the atmosphere. Which would be equivalent to Vondom planting roughly 60,000 trees.

Marketeable

An innovative and dynamical

Brand

We design luxury furniture, planters, lamps, and specialize in:

Rotational Moulding

Components are 100% polyethylene

01

Injection Polypropylene

Components are polypropylene combined with fibreglass

02

Injected Polyurethane

Components are a flexible polyurethane foam

03

Aluminium

By moulding or aluminium extrusion

04

Wood

We bring organic materials

05

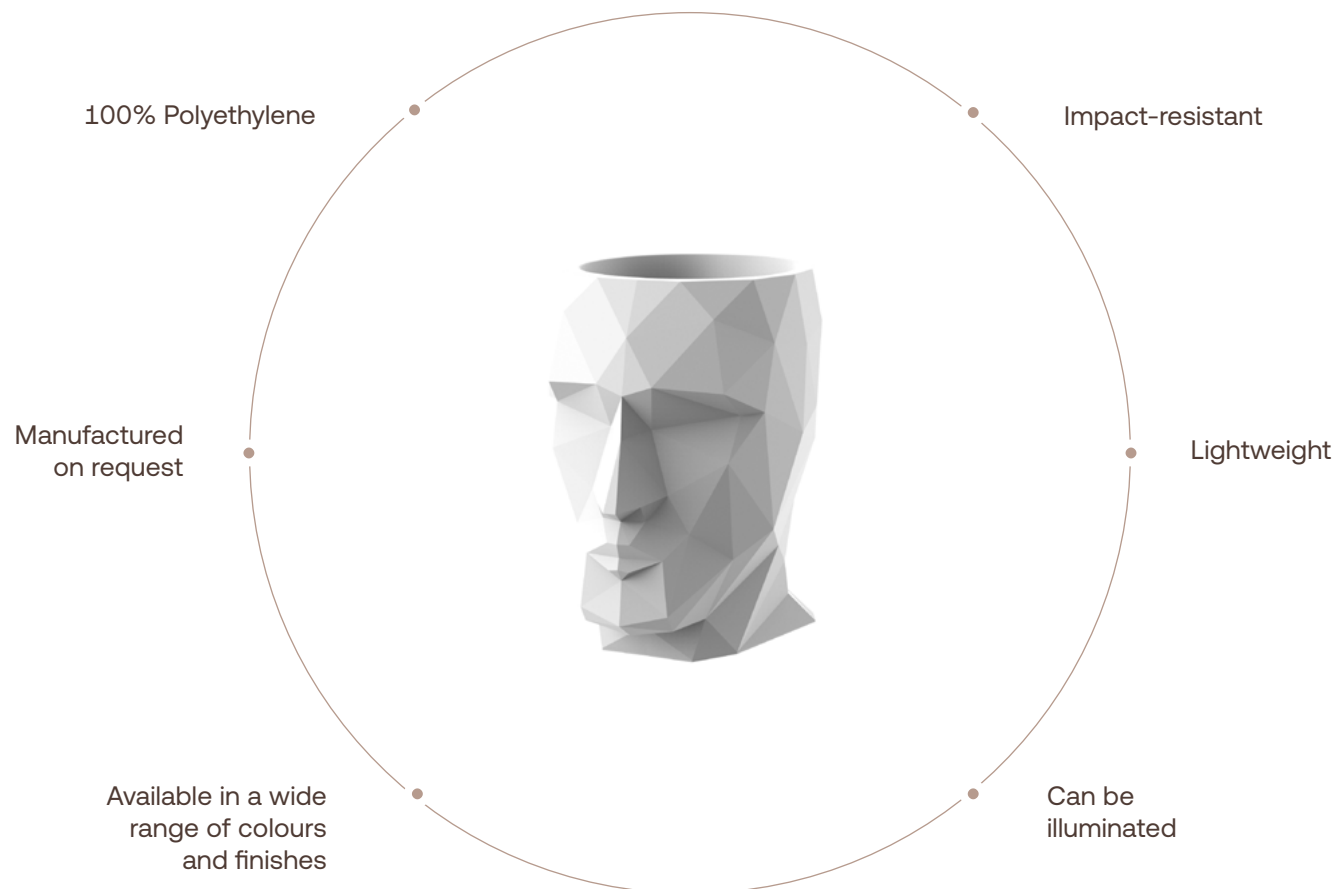

Rotational Moulding

Polyethylene is one of those materials that has it all: light, resistant and versatile. Thanks to rotomoulding, at Vondom we mould unique pieces, made to stand the test of time, always maintaining the freshness and beauty of the first day.

Injection Polypropylene

Lightness and strength come together in a material that can withstand almost anything, even extreme temperatures. We are committed to innovation with the technique of injection moulding reinforced polypropylene, to create designs with their own personality that last season after season.

Injection Polyurethane

With polyurethane, our designs become more comfortable, warm and appealing. This material instantly regains its shape, inviting you to enjoy a comfortable and carefree experience. Durability and comfort, combined with creativity, to make relaxation a real pleasure.

Aluminium

Aluminium brings lightness and strength to the design. Extracted from bauxite and treated with baked epoxy paints, its texture seduces at first sight, creating contemporary outdoor furniture that defies any climate and decorates with a fresh and timeless elegance.

Wood

Natural and warm, wood adds an organic accent to our pieces. At Vondom we look for materials with a soul of their own, and wood gives us textures, nuances and warmth to fill any exterior with life and good taste.

Lighting

At Vondom, light is pure emotion. Each lamp and each environment plays with shadows and nuances to create warm and enveloping atmospheres. More than just illuminating spaces, we dress them with magic, inviting you to live intensely every moment outdoors.

Vondom sets the trend in outdoor

Each collection is a declaration of style that transforms terraces, gardens and swimming pools into settings where design is experienced with all the senses. We are committed to new textures, colours that dialogue with nature and materials that tell stories of innovation. This is how we turn the outdoors into the most desirable place.

VONDOM

We are committed
to sustainability

ISO 14001 – 2015, international support

ISO 14001:2015 certification endorses the measures we have put in place to optimise resources, reduce waste and strengthen environmental management. This recognition supports the soundness of our methods and encourages us to constantly improve. We feel it is an achievement that transcends paper and embodies Vondom's philosophy of environmental protection.

Carbon footprint reduction

In the last two years, we have managed to reduce our carbon footprint by more than 14%. Our target for 2025 is to reduce it even further by applying best practices, improving the efficiency of our processes and adjusting our purchasing system to our real needs.

VONDOM

REVOLUTION

Our Revolution

We create outdoor atmospheres to ensure we all enjoy nature, the outdoor plants, the fresh air, and the sea. For this reason our duty is to care for and protect our environment.

We created our own Revolution. A decade ago Vondom burst into our lives launching its new avant-garde products. Hand in hand with the best designers in the world, these products were thought of to ensure a better future. We lead this revolution in the furniture industry by implementing eco-intelligence and sustainability.

Our goal is to contribute to the recovery of our Mediterranean scenery, transforming wasted and scattered plastic into long-lasting and recyclable products.
